Anytime. Anywhere.

The Disposa-John Portable Restroom contains everything needed to safely dispose of solid human waste. Our patented “bag-in-bag” design and puncture-resistant zip closure securely contains the waste and the odor, while our special blend of polymers and enzymes instantly begins to break down the waste and convert it into a deodorized gel.

Disposa-John bags are designed to work in conjunction with our Commode and are also sold as part of our Field Lavatory Kits.

KEY PRODUCT FEATURES

- Locking bag guards against spills, leaks and transmission of bacteria
- Our special blend of polymers and enzymes deodorizes and transforms waste into gel
- Designed for ease of use by both men and women
- Comes complete with antimicrobial wipe and toilet paper
- 4 mil-thick, 3-layer barrier bag design traps in odor as well as waste
- Trash container safe, meets state and provincial disposal requirements
- Unique bag-in-bag design provides users with safety and convenience with drawstring straps
- Suitable for disposable feminine hygiene products
- Effective temperature range -40°C to 40°C (-40°F to 104°F)
- Meets or exceeds ASTM D-1709-98 impact resistance test
